ANGLICARE
CHANGING LIVES WA

Separating from your partner can be one of the most difficult times of your life.

Unfortunately sometimes children can become caught in the middle.

Family Resolutions

Separation is a time when many difficult decisions need to be made. Issues involving children and their needs are often complex to resolve because of the breakdown of the relationship between parents.

Kinway offers a range of services to assist children and their parents in relation to child residency and contact including assistance in moving forward after their relationship has ended.

What does the service provide?

Mum's & Dad's Forever (A free service)

This is a programme for separated parents in conflict over parenting issues. It helps separated parents manage conflict over child contact arrangements. Services include counselling, groups, and child focussed therapeutic mediation. Groups run for parents over a 7 week period or on weekends.

Contact Services/Family Visiting Services

This service offers parents a neutral place for supervised changeover and visits. Services are provided at East Perth, Girrawheen and Bunbury.

Kids & Separation

This new group programme is for kids aged 7-12 years whose parents have separated. Emphasis of this 6 week programme is on meeting other kids whose parents have separated, sharing experiences and learning coping skills in a fun environment.

Additional services

Counselling

Counselling is for individuals, couples, families and children who have any concerns about their relationships. All staff in KinWay have tertiary qualifications and most have post graduate degrees. They can assist you to look at past, present and future options for yourself and your family.

Where To Next?

A 2 hr seminar exploring issues experienced in separation including strategies to cope when feeling emotionally overwhelmed.

Rebuilding Your Life After Separation or Divorce

This 8 week group programme is a more in depth look at separation issues and assists people to understand and come to terms with grief, anger and other emotions which they are faced with during the stressful time of separation.
